Knowledge
and
Deep
Understandings

Creative and
Critical Thinking
Skills

Collaboration
Skills

Resilience and
Confidence

High
Proficiency
in Japanese
and English

◆ Mission ◆

To be a global leader in building
peace through the power of
learning.

◆ Vision ◆

To foster leaders who create in their
community “a better future” for peace
and sustainable development.

◆ Values ◆

To be a learning community
whose global vision is rooted in a
local context.

◆ Beyond the Boundaries: Seto Inland Sea National Park ◆

The Seto Inland Sea is world-famous for its islands and areas of outstanding natural beauty with citrus groves, woods, beaches and hills in an area rich in natural resources. On the island students will grow and cultivate both their emotional and academic potential.

The life of the island is deeply connected to the beauty of the land and ocean, with its marine and ship building industries, local produce and farming. Students will learn alongside local people in the real-world environment, putting their ideas firmly into practice and understand that a **peaceful and sustainable world** begins at the local level.

1. Programs : International Baccalaureate MYP and DP

HiGA is an International Baccalaureate World School. We offer the Middle Years Programme (MYP) from Grades 7 through to 10 and will offer the Diploma Programme (DP) from Grades 10 through to 12. These programs provide students with the kind of research-based, independent-learning skills valued by universities around the world. Our inquiry-based curriculum fuses the strengths of the international program with the national curriculum of Japan, providing our students with an excellent foundation for their future at university and beyond.

2. Thematic approach: UN SDGs (Sustainable Development Goals)

HiGA is a mission-based organization. Its education program and values are bound together, so that young people will have a keen understanding of their roles in **peace and sustainability** in all aspects of their lives. We are sincere in our commitment to the UN Sustainable Development Program. We believe that our holistic curriculum enriched with such commitment and purpose is provides deep learning throughout the Academy.

3. Holistic approach: Full board dormitory system

Central to the Boarding ethos of HiGA is the belief that in **diversity** there lies strength. We are creating a **multi-cultural community** where students from across the globe can study, work and live together to generate new ideas and perspectives. Opportunities for student exchange in junior high school and full-time study in high school will be available for students from around the globe. At HiGA students will build a community to celebrate cultural diversity and that will form bonds of friendship that span international borders.

4. Project-based approach

HiGA is a community dedicated to learning and acting to find the right way to solve **real-world problems**. Young people at HiGA are **leaders & innovators**. They have a strong social ethic and a commitment to global justice. They think in terms of sustainable solutions and create projects that explore solutions to both local and global issues. They research, investigate & work together to achieve their aims because in **diversity** there is strength.

5. HIROSHIMA, The capital of PEACE

The island of Osaki-kamijima is around 1.5 hours by ferry and bus links to Hiroshima, the international city of peace. This link is precious to our identity. Students will learn about the lasting **value of peace** by seeing the post war reconstruction of Hiroshima firsthand. Additionally, they will take part in many different initiatives, festivals, ceremonies and programs that emphasizes the importance of building a sustainable future. Students will be encouraged also to pursue their own projects to answer for themselves **"What is peace?"**

The future of learning is Now

We are leading learning innovation not only in Hiroshima, but also in Japan with our learner-centered competency-based curriculum.

Annual Tuition Fees	118,800 JPY	1,140 USD
Annual Dormitory Fees	444,000 JPY	4,261 USD

◆ Messages ◆

School Principal – Kazuhiko Fukushima

Our success is **well-being** : everyone in our learning community cultivates a feeling of happiness. We have three pillars to achieve our school mission. First, “**Ownership**: We are CAN-DO people.” Second, “**Mission-led**: We are **SOCIAL INNOVATORS**”, Third, “**Diversity**: It is good to be different.” We are always open to anyone who wants to join us.

Senior Director – Carol Inugai Dixon

(President, Japan Association for Research into IB Education)

I am very honored to be able to join Hiroshima Global Academy as senior director and am looking forward to contributing to the development of a school culture and community that nurtures the well-being of all students, not only in the academic sphere but also in the social, emotional and ethical spheres.
